INTRO

Geena the mermaid decided she is going to have a great time this year on her vacations. She wore her magic necklace made of seaweed that transforms her fishtail into feet and went sunbathing at the beach!

Little did she suspect, that Burke, her jealous brother who is compelled to stay in and study coralology, stole her necklace while she was resting and left her a message on the sand:
"I like biting your clothes, when they are laid out to dry, it's not that I'm hungry, without me they might fly"
Did you solve the riddle? Let's see, maybe he hid the necklace there!
